CAHIER ADAPTÉ ÉLÈVES NON-VOYANTS

Prénom de l'élève

Nom de l'élève

Classe de l'élève

SÉQUENCE 1

FRANÇAIS

Exercice 1

Pour préparer la tarte, déroulez la pâte au fond du moule puis ajoutez de la compote par-dessus. Étalez celle-ci avec le dos d'une cuillère. Disposez ensuite les pommes sur cette préparation. Enfournez et laissez cuire pendant 25 minutes.

Saisie des réponses sur le cahier de l'adulte accompagnant.

FRANÇAIS

Exercice 7

Nathan et Chloé voudraient bien se baigner dans la petite rivière qui coule au fond de leur jardin. Alors ils décident de construire un barrage. Ils apportent des cailloux et des branches. Ils les entassent les uns sur les autres. Ils ont presque fini quand maman appelle : « Venez goûter, mes petits castors ! »

Exercice 15

Dino, où es-tu ? crie papa.

Ici, dans la mare.

Depuis une heure, Dino, le petit dinosaure, se débat pour se dégager de la boue profonde. Il pleut, de grands oiseaux noirs volent dans le ciel sombre. Ils se préparent à attaquer Dino. Dino pose sa grande patte droite sur le bord de la mare et il essaie de sortir son corps de la boue.

Son père arrive entre les arbres de la forêt qui borde la mare.

Il attrape le cou de Dino entre ses dents et d'un coup, il soulève Dino.

Il le pose sur la terre ferme.

Sauvé ! crie Dino.
